

County Attorney Traffic Safety Program

You are eligible to participate in the Drive Safe Kentucky Traffic Safety Program offered by the County Attorney. The cost is similar to the pre-payable fine and requires you to complete an online driver education and safety course which teaches and promotes highway safety. Once completed, the ticket may be dismissed with no points assessed against your license and not appear against your driving record, or it may be amended to have less impact upon your driving record. The website to enroll online is **drivesafeky.com**. The login requires your citation control number. If you have a problem logging in you can contact the County Attorney's office at 270-265-5651 or call the Drive Safe Kentucky office at 866-703-7772.
